Archit Sharma

Front-End Developer (React + TypeScript)
Chandigarh, India | therethough@gmail.com | linkedin.com/in/archit-react | github.com/archit-react

Summary

Frontend Developer with 1 year of experience creating high-quality, responsive web applications using React.js, JavaScript, HTML5, and CSS3. Proven ability to collaborate in remote settings, translate UI/UX designs into scalable interfaces, and optimize performance across browsers and devices. Strong grasp of version control (Git), accessibility, and modern testing frameworks.

Technical Skills

• JavaScript (ES6+), TypeScript, HTML5, CSS3
• React.js, Vite, Tailwind CSS, Firebase
• Responsive Design, Adaptive Layouts, UI/UX Principles
• Git, GitHub, Version Control, Webpack
• Testing: Vitest, React Testing Library, Unit Testing

Work Experience

Front-End Developer (Self-Initiated Projects) | July 2024 – Present

• Developed and deployed 5+ responsive web applications using React.js, TypeScript, and Vite
• Focused on responsive layouts, accessibility, scalable architecture, and performance optimization
• Built scalable component systems with focus on UI/UX, accessibility, and reusability
• Integrated APIs (Gemini, Firebase) and implemented unit testing using Vitest
• Applied best practices in Git-based version control and agile-like workflows

Technical Support Associate | Apple Operations via TP | 2021 – Present

• Supported accessibility-focused systems for hearing-impaired users
• Worked across cross-functional teams to troubleshoot UX, performance, and connectivity issues
• Maintained high customer satisfaction ratings and ensured compliance with data handling standards

Projects

PulseBoardX – Admin Dashboard – https://admin-dashboard-green-nine.vercel.app/
Analytics dashboard with animated stat cards, charts, filters, modals, and role-based views. Built with Headless UI, Tailwind CSS, and Recharts.

AI ChatBot – https://ai-chat-bot-app-seven.vercel.app/
Gemini Pro-based chatbot with model selector, scroll memory, sticky footer, and responsive UI with sidebar management.

AI Code Generator – https://ai-code-generator-navy.vercel.app/
Real-time code generation with AI prompts, syntax highlighting, i18n, dark mode, and typewriter animation. Built with React.js, Vite, and Gemini API.

Post Scheduler UI – https://post-scheduler-ui.vercel.app/
Scheduling tool with editable posts, reminder notifications, custom date picker, and responsive adaptive layout. Built with React, Tailwind, and Firebase.

Education

Bachelor of Computer Applications (BCA), Dr. A.P.J. Abdul Kalam University, Indore | 2017 – 2020

Certifications

Responsive Web Design Certification
JavaScript Algorithms and Data Structures
React Basics – Scrimba | Open to remote roles globally, with preference for U.S.-based, English-speaking teams.
